Your Eyes Should be the First Thought

To see the Beautiful Surroundings—
of the Flower City.

If your vision is not perfect consult us at once. For many years we have treated defects of eyesight successfully. We employ all of the latest and best methods known to science and fit glasses that will correct any shortcomings of the sight. Children's eyes should be carefully guarded and at the first indication of headache or effort to read easily, the remedy should be applied to strengthen the optical nerves by properly fitted glasses. Our many years of experience speaks for itself.
