*Everything for the Work Horse*

AT WHOLESALE PRICES

**JOHN A. WEIDER & SON**  
MANUFACTURERS OF  
**QUALITY HARNESS**

25-27 SPRING STREET  
ROCHESTER, N. Y.

ESTABLISHED 1879

CATALOG No. 2

# *To Those Who Use Horses For Power*

## OUR HISTORY

**F**ORTY-EIGHT YEARS AGO, John A. Weider started in business with small capital, but with a thorough knowledge of making harness, gained by four years experience at the work bench as an apprentice. It was a one man shop then, and the policy at the beginning was—Greatest Value and Best Service, and now after developing the business so as to uphold the name of Western New York's Largest Horse Supply House, this policy is more in prominence than ever before.

## SERVICE

To our many customers who have favored us with their business in the past, we need not comment on this topic. To those whom this catalogue will reach who have not made purchases from us in the past, we want to state that all orders for merchandise listed in this catalogue will be shipped within twenty-four hours after receipt of order, as we carry the largest and most complete stock of horse furnishings in Western New York.

## GUARANTEE OF QUALITY

Our merchandise is second to none. It is our aim to maintain a high standard of quality. We stand back of our merchandise to the extent that if you are not satisfied with your purchase, you may return same and we will gladly refund your money, and delivery charges that you have paid.

## YOUR TRADE IS APPRECIATED

We want to take this occasion to express our appreciation to the many loyal friends and customers of our institution. We feel our obligation to you for your patronage and we want you to know about it. There is a great satisfaction in serving the public when you serve them well, and know that they are pleased with your efforts. While all concerns are in business for profit there is a tremendous compensation to be enjoyed in friendships you make through giving values and serving them in a pleasing way. In doing this, success is sure and the reward golden. We shall ever strive to maintain with our old, and establish with our new, the friendly business relationship which we have enjoyed for the past forty-eight years.

# SIX GOOD REASONS FOR BUYING FROM WEIDER'S

**1st. GUARANTEED MERCHANDISE** of the highest quality that is second to none, at lowest possible prices that will save you many a dollar.

All of our harness, strap work and collars are manufactured in our own factory under the personal supervision of Mr. John A. Weider himself, who has been engaged in the manufacture of custom made harness for the past 48 years.

**2nd. QUICK SHIPMENTS.** All orders are filled from the largest stock of horse furnishings in Western New York, the same day they are received.

**3rd. CONVENIENCE IN BUYING.** Where it would take you hours or days to supply your needs in local stores you can in just a few minutes select what you need from this catalog and have your order on its way. This means a big saving for the busy man. **We are as near to you as your mail box.**

If there is anything that you wish to purchase in our line that you do not find listed in this catalog, either send us a description of it or call on us and we will no doubt have it in stock or will obtain same for you at a reasonable price. You will note by glancing at the street map on back of cover, that our retail store and factory are located in the heart of Rochester and very convenient for those who wish to come to our store and make their purchases at the same prices as listed in this catalog.

**4th. YOU ARE THE SOLE JUDGE.** If you are not perfectly pleased in every way with any thing purchased from Weider's send it back at once and your money will be promptly returned. Our guarantee protects you fully.

**5th. OUR LOW OPERATING EXPENSE** enables us to save you money on every item listed in this catalog. No big rents, high taxes or extravagant salaries are added to the cost of merchandise. Our policy is to sell everything at lowest prices, save money for our customers and build up a big volume of business by making thousands of new friends and patrons every year. Buy from Weider's—it pays you.

**6th. OUR UP TO THE MINUTE REPAIR DEPARTMENT.**

This department is equipped with all the latest machinery to enable our skilled mechanics to handle all kinds and any quantity of repairing on a short notice or while you wait, at reasonable prices.

It is also equipped to do all kinds of collar repairing. We specialize in collar refacing and charge a flat rate of \$2.50 per collar.

We also have a special harness washing and oiling service, which every owner of harness should avail himself at least once a year. Our flat rate for washing and oiling is \$2.25 per set of team harness.

It is not necessary to bring in your harness for repairing or oiling, you may send it to us together with instructions as to what you wish done. It can be sent either by freight, express or stage and we will return it very promptly to you C. O. D.

## INSTRUCTIONS FOR ORDERING

Make out your order carefully. Write plainly and be sure that sizes and numbers are stated where necessary. Delays in shipments are often due to the customer's mistakes or incomplete orders.

**SEND CASH WITH ORDER.** While we will ship goods C.O.D., if desired, it is cheaper for you to send cash with order, thus saving delay and collecting fees. Send money order, bank draft or currency by registered letter. You may figure out the parcel post, freight or express rates by use of chart on back of order blank. Mail your order to:

JOHN A. WEIDER & SON,  
25-27 Spring Street,  
Rochester, New York.

All prices listed in this catalog are net cash and no extra discounts.  
On all charge accounts an additional carrying charge will be added.

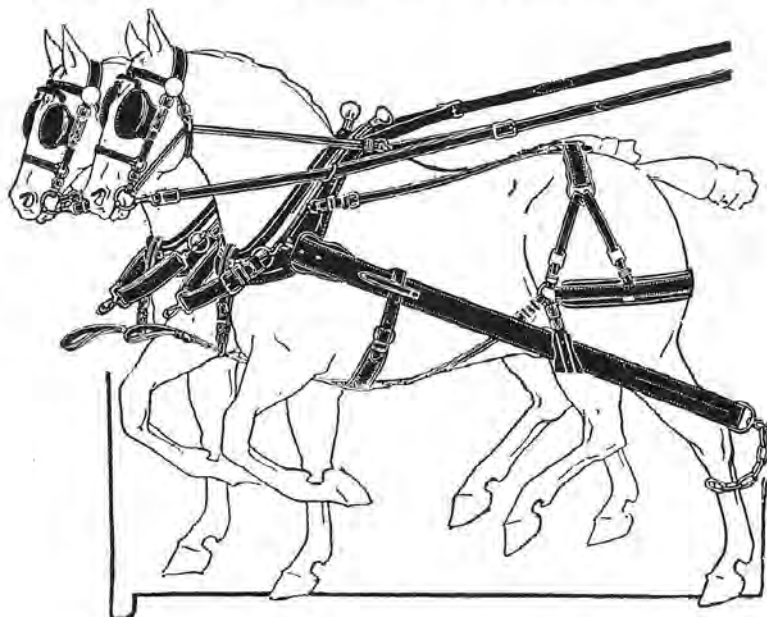

# WEIDER'S MONEY SAVER

## How to Order Horse Collars

If you have an old Horse Collar that fits, give inside length in inches from top (A) to bottom (B)—see illustration at left. If you have no collar of right size, measure horse's neck, using yard stick or gauge made of laths as shown in lower illustration. The measurement in inches from E to F will be size collar required. Follow either of these methods

and we can supply collars which will fit your horses comfortably.

The draft is the circumference at D and C. Choose the style collar having draft desired. Wide draft means more comfort and pulling power for your horse.

**It Is Easy to Order from Weider's**

## HOW TO FIT HORSE COLLARS

It has been our greatest pride for a great many years to say that we can fit horse collars properly. Now we are passing the secret along to our customers by way of the sketch which shows the shoulder bone of a horse and how a collar should fit against same to get the best results.

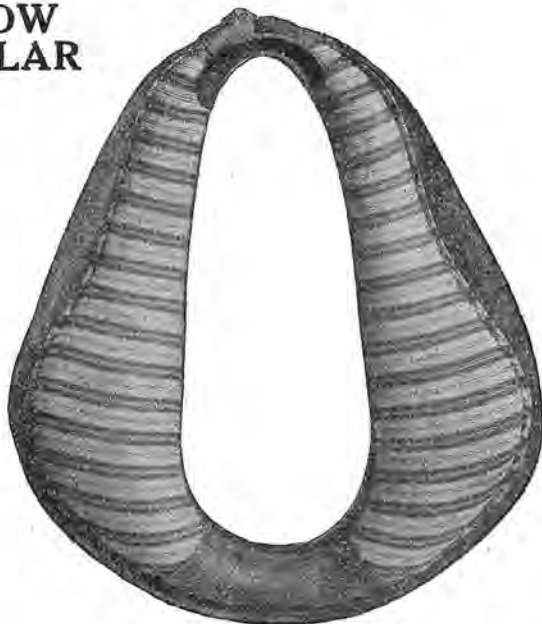

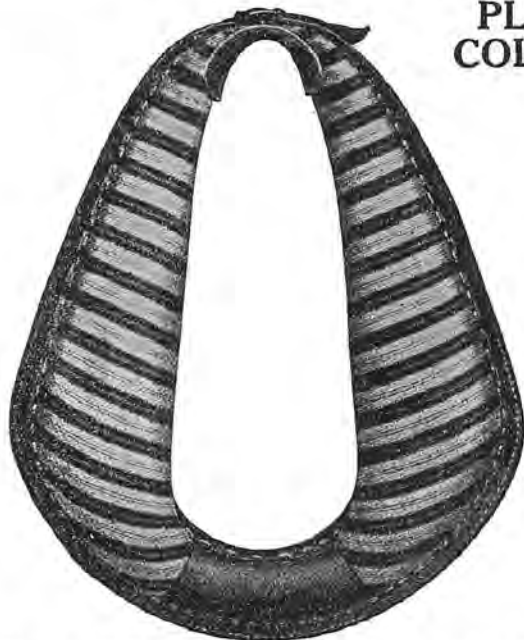

Most all horses today have what we term a Bull or thick neck, and to fit this type of neck properly a  $\frac{1}{2}$  Sweeney collar must be used. When a collar rests against a horse's shoulder bone as in the above sketch, you will not experience sore necks or shoulder. Also a collar should always be kept snug to the neck to keep the collar resting on the front of the shoulder bone and not spread apart so that the collar slides back over the bone. To do this, keep the collar buckled tight on top and also hames buckled tight to collar.

We recommend the use of  $\frac{1}{2}$  Sweeney Collars on all large neck horses.

**WE MAKE ONLY THE BEST OF COLLARS**

### Irish Horse Collars
